UECC announces new Atlantic service

UECC is pleased to announce the launching of a new Atlantic service where we link Scandinavia with the North of Spain. This service is the quickest way to Scandinavia, connecting Vigo (Spain) with a direct service into Drammen (Norway) and Wallhamn (Sweden). The new service deploys three Breeze class vessels and there are two loops.

Responding to the new service, Ms. Helen Bjerke (Head of Trade and Operations) commented, "UECC is the only shortsea provider offering such a convenient route and we have received very positive feedback on this. Especially on the southbound where we have spaces available to cater to this ever-changing industry! As a leading provider of shortsea RoRo transportation in Europe, we aim to be versatile and flexible. We offer reliable solutions for a challenging industry for the transportation of cars and high & heavy cargo in the region."

Notes for editors:

UECC (United European Car Carriers) is a leading short-sea operator and logistics provider for the transportation of cars, vans and high & heavy cargo in Europe. The company was established in 1990 and holds contracts with all the major vehicle manufacturers. With a fleet of more than 20 purpose-built vessels, UECC transports around 1.7 million car equivalent units annually. UECC also operates several vehicle terminals in major European ports. UECC is owned in equal shares by Nippon Yusen Kabushiki Kaisha (NYK), one of the world's largest shipping companies, and by Wallenius Lines of Stockholm, Sweden's foremost shipping enterprise.
