

A stylized map of Europe in a dark teal color. Overlaid on the map is a network of orange lines and dots. The dots represent ports or hubs, and the lines represent shipping routes. The network is dense in the northern and western parts of Europe, with lines connecting various points across the British Isles, Scandinavia, and the North Sea. It also extends southwards into the Mediterranean region, with lines connecting ports in the Balkans, Greece, and the Italian peninsula. The overall impression is of a comprehensive and interconnected shipping network.

*UECC's LINER TRADING NETWORK covers Europe
from the Baltic Sea to the Mediterranean Sea*
